## ATLANTE AND ELECTRIC VEHICLE USER ASSOCIATIONS JOIN FORCES IN MONACO TO PROMOTE SUSTAINABLE MOBILITY

**Paris, 12 November 2024** – Atlante, the company of NHOA Group dedicated to electric vehicles (EVs) fast and ultra-fast charging network, will participate in the 19th edition of EVER Monaco show on November 13 and 14, 2024, at the Grimaldi Forum. On this occasion Atlante will join forces with three major electric vehicle user associations from GEVA (Global Alliance of EV Drivers' Associations) – FFAUVE (French Federation of Electric Vehicle User Associations), UVE (Association of Electric Vehicle Users) in Portugal, and AUVE (Association of Electric Vehicle Users) in Spain – to advocate for sustainable mobility across Europe. These associations, members of the GEVA alliance, bringing together 64 organizations worldwide, represent the interests of over two million electric vehicle drivers.

The EVER Monaco exhibition, the largest event dedicated to sustainable mobility and renewable energy in the Principality, highlights technologies related to future transport and energy solutions, encompassing land, maritime, and aerial sectors. This year it will expand its program and will be running at the same time as the AVERE E-Mobility Conference (AEC), organized by the European Association for Electromobility. Stefano Terranova, CEO of Atlante, will participate in a session titled "*How to Make Electromobility a European Industrial Success?*" on Wednesday, November 13, as part of the AVERE E-Mobility Conference.

On Thursday, November 14, Jacques Galvani, CEO of Atlante France, will participate in the EVER Monaco show program contributing to a roundtable discussion on "*Optimizing the Deployment of Charging Infrastructure and Its Interaction with Renewable Energies,*" within the broader context of electric mobility in Europe.

From an environmental perspective, Atlante and the associations support the decarbonization of transport, in line with the European Parliament and Commission's decision to mandate the sale of new electric vehicles starting in 2035, a key element of the European Union's strategy to achieve climate neutrality by 2050.

*"Atlante is committed to addressing the complex global challenges at the intersection of energy, technology, and industrial transition. In just 3 years we have grown Atlante into a leading player in Southern Europe with thousands of fastchargers across our four countries: we are living proof that we can make the transition to zero-emission driving a success. As we move into democratization of electric mobility, it is crucial that our initiatives align with customer needs, which is why we prioritize collaboration with industry partners and EV driver associations. By fostering synergies and mutual exchange, we strive to enhance the customer experience and establish electric mobility as the norm for millions of Europeans,"* said **Stefano Terranova, CEO of Atlante**.

*"At the EVS 35 in Oslo in June 2022, our paths crossed with Atlante, and we were impressed by its ambition to meet the expectations of electro-mobilists in France. At the same time, other associations from the GEVA network engaged in discussions with Atlante to extend this initiative to Southern Europe. Our joint presence in Monaco celebrates this fruitful collaboration,"* commented **Stéphane Sémeria, Board member of FFAUVE and GEVA**.

*"The growth of electric mobility in Portugal depends on building trust with accessible and reliable charging infrastructure. Our partnership with Atlante is an important step in making e-mobility more accessible to all,"* said **Pedro Faria, Director of UVE**.

*"AUVE's partnership with Atlante marks a significant milestone in advancing electric mobility across Southern Europe. By combining our deep understanding of Spanish EV users' needs with Atlante's rapidly expanding fast-charging network, we're enhancing the EV experience. This collaboration is crucial in advocating for improved charging solutions and accelerating the transition to sustainable transportation, making electric mobility more accessible and convenient for users throughout Spain and beyond,"* highlighted **Néstor Lázaro, International Director of AUVE**.

---

The rise of electric vehicles in Europe is accompanied by rapid development of charging infrastructure, tailored to new uses, allowing users to travel freely. Atlante, FFAUVE, UVE, and AUVE are committed to making electric mobility accessible to the widest audience possible, facilitating the development of public fastcharging network in Southern Europe.

### Atlante

Atlante is a company of NHOA Group (NHOA.PA, formerly Engie EPS), global player in energy storage and e-mobility, which develops technologies enabling the transition towards clean energy and sustainable mobility, shaping the future of a next generation living in harmony with our planet. Atlante is developing the largest fast and ultra-fast charging network in Southern Europe, 100% enabled by renewables, and enhanced by energy storage and on-site photovoltaic.

Since its launch October 2021, Atlante has today more than 2,500 charging points online in Italy, France, Spain and Portugal. Leveraging on the technological heritage of the NHOA Group, including via collaboration with its sister company Free2move eSolutions, Atlante is a preferential network of the Stellantis automotive group and its customers. Atlante stations are fully interoperable and accessible through the myAtlante app or other electric mobility apps and charging cards, supporting all brands and models of electric vehicles.

### CONTACTS Atlante

**Press Office Atlante France:** Roxane Planas, +33 6 37 05 84 42, Charlotte Le Barbier, +33 6 78 37 27 60, and Renault Enguerand, Image7, [atlante@image7.fr](mailto:atlante@image7.fr)

**Financial Communication and Institutional Relations:** Chiara Cerri, +39 337 1484534, [media.relations@nhoagroup.com](mailto:media.relations@nhoagroup.com)

### AUVE

AUVE's mission to represent Spanish EV users, promote electric mobility, and expand charging infrastructure aligns perfectly with our Southern European counterparts. Together, we'll amplify our impact, advocating for users' rights and collaborating to accelerate sustainable transportation across Europe. For further information, go to [www.auve.org](http://www.auve.org)

### CONTACTS AUVE

**International Director:** Néstor Lázaro, +34 621 030 635, [nestor.lazaro@auve.org](mailto:nestor.lazaro@auve.org)

### FFAUVE

According to a unique model, FFAUVE brings together historical or more recent associations of electric vehicle users in France, in order to promote and defend electromobility and the energy transition at the national level. For further information, go to [www.ffauve.org](http://www.ffauve.org)

### CONTACTS FFAUVE

**General Delegate:** Stéphane Sémeria, +33 6 70 87 50 25, +33 7 85 64 14 58, [stephane.semeria@ffauve.org](mailto:stephane.semeria@ffauve.org)

### UVE

UVE (Associação de Utilizadores de Veículos Elétricos) is a non-profit organization and Public Utility Entity, with the mission of promoting electric mobility. It was created from the need to officially represent and give voice to an already significant community of owners, users and supporters of electric vehicles in Portugal. For further information, go to [www.uve.pt](http://www.uve.pt)
